Comments about [In Rough Territory](#) - 4 Hero

Nuadazius

My first album! I had no idea what I was purchasing, I just wanted the rave sound, hardcore records. It sounded amazing after listening to crackling pirate radio stations and recording DJ sessions on cassette's. The rave sound especially from Altern 8 got me hooked so did the vibe. I had not even head of Reinforced records, I did not even listen to the vinyl! I asked the guy in Virgin records if they sold hardcore and he pointed me in the direction of what they had I liked the cover so I bought it! I got home and played it on my mums realistic hifi and bugged out. The tracks are so raw and for tunes made in 91 put together really well reinforced were ahead their time. Mr Kirks Nightmare was probably the biggest track at the time in 91 I think. For me there is one track on here that dominates though, its simple and a now typical Reinforced surprise. Knowing Marc I know he likes drop in surprises .. and 4 Hero by 4 Hero was so far ahead its time back then its just pure music for the mind.. even now when I put it on. I never asked Marc why the album was called In Rough Territory. It is a must own for all Hardcore, Darkcore, Hardcore Jungle, Drum n Bass heads a little piece of something special.
